Regarding the Hydro-X® products

**Hydro-X Boiler Water Compound
Hydro-X E-10 Super
Hydromin**

Your ref.:

Our ref.: ASS

Date: 1st May 2010

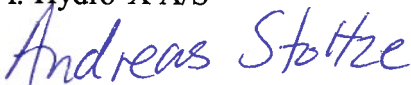

The ingredients in the above mentioned products

- Sodium hydroxide – CAS-no. 1310-73-2
- Trisodium phosphate – CAS-no. 7601-54-9
- Tannin – CAS-no. 1401-55-4
- Morpholine – CAS-no. 110-91-8 (only Hydromin)

are all listed in the U.S. Food and Drug Administration (FDA) Federal Regulation, Title 21, Part 173, Section 173.310 – Boiler Water Additives – where the steam is intended to get in direct contact with food.

However, the content of morpholine must not exceed 10 ppm in steam, and the steam is excluded from contact with milk and milk products.
